# **Structural Laser**

**Laser processing** of tube, pipe, bar, shapes, custom shapes and extrusions is a cost saving specialty of Farwest.

**3-D Laser Processing** replaces multiple operations such as sawing, grinding, machining, drilling and punching with one operation.

#### **Benefits**

- Cutting multiple parts from 48' feed stock reduces wastage and costly setup time
- Eliminates manual measuring and cutting
- End-cut, bevel-cut and/or contour-cut both ends of parts with no re-positioning
- Adding "tabs" and "slots" to parts reduces or eliminates costly clamping time prior to welding
- 6-Axis cutting head produces true 3-D cut for perfect fit of angular connections including weld prep bevels resulting in reduced weld time
- Laser marking for location and identification
