

Forming

Farwest possesses one of the widest ranges of press brake capabilities on the West Coast. From 50' forming to precision tolerances to small brackets, Farwest forming offers a quality metal solution that is well supported.

Uniquely positioned, Farwest processes are vertically integrated—designed to improve lead time and reduce costs. Farwest can level coil, process leveled sheet and plate using HyDefinition or laser tables, and form parts—all in one facility.

FORMING 12 PRESS BRAKES

Max Throat/Width - 24" - 264" housings

Max Length - 50'

Max Thickness - 1½"

Max Tonnage - 750
